Chairman's Statement

On behalf of the board (the "Board") of directors (the "Directors") of Paradise Entertainment Limited (the "Company"), I am delighted to present the annual report and the audited consolidated financial statements of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2014.

BUSINESS AND FINANCIAL REVIEW

Revenue of the Group for the year increased from HK\$1,030,455,000 to HK\$1,192,288,000, representing an increase of 15.7%. The increase was mainly attributable to Casino Kam Pek Paradise which grew by 16%. Casino Kam Pek Paradise far outperformed the gaming industry in Macau which recorded a growth rate of -2.6%.

Profit of the Group for the year decreased from HK\$103,778,000 to HK\$66,541,000, representing a drop of 35.9%. Reasons for the reduced profit were full year impact of Waldo Casino which was loss making, the initial overheads of Casino Macau Jockey Club ("MJC Casino"), as well as the higher amortization from the acquisition of patent and patent applications in the U.S. completed in June 2013. Excluding the amortization of patent and patent applications and the loss on early redemption of promissory note, profit attributable to the owners of the Company is increased by HK\$21,715,000 compared with year 2013. Despite the lower EBITDA for the gaming industry in Macau, the adjusted EBITDA* of the Group grew from HK\$197,716,000 to HK\$203,051,000, seeing an increase of 2.7%, which was mainly driven by the revenue growth of the Casino Kam Pek Paradise.

The Group is committed to share the growth and success with our investors and shareholders. To thank for shareholders' continual support over the years, the Board resolved to recommend a final dividend of HK5 cents per share.

Provision of casino services

During the year, the revenue generated by the provision of casino services contributed 86.6% of the total revenue. Adjusted EBITDA from the segment decreased from HK\$162,830,000 to HK\$160,900,000, representing a drop of 1.2%.

In April 2014, the Group expanded its casino services by adding MJC Casino into its portfolio of casinos. MJC Casino is the world's first chipless casino offering LMG terminals, E-baccarat Tables and slot machines. The Group was able to lower the operating costs of MJC Casino with its proprietary products and solutions. We will also be opening slot halls at Waldo Casino and MJC Casino in 2015. To that end, 172 units and 84 units of slot machine have been installed at Waldo Casino and MJC Casino, respectively, in December 2014.

Sales and revenue sharing of LMG terminals

For the year ended 31 December 2014, revenue generated by the sales and revenue sharing of LMG terminals contributed 13.4% of the total revenue. The adjusted EBITDA increased from HK\$55,549,000 to HK\$67,005,000, representing an improvement of 20.6%. This is mainly attributable to the increased income from revenue sharing of LMG terminals.

2014 was a challenging working environment for the Group as there was lack of new casino openings in Macau to drive sales of LMG terminals. However, we took the opportunity to introduce new products into the market to expand our product offerings. We have successfully deployed and run our proprietary E-Baccarat Table at the MJC Casino. Like our LMG terminal, the E-Baccarat Table serves to improve the productivity of dealers and the efficiency of casino operations. The acceptance and result have been encouraging, and we are confident that the adoption will pick up later this year among the mainstream casinos.

* Adjusted EBITDA is profit attributable to owners of the Company before taxation, finance cost, loss on early redemption of promissory note, depreciation and amortization and interest income.

Chairman's Statement

To lessen the sales unpredictability derived from a single market, the Group has stepped up its efforts to explore new markets. To that end, the Group has entered into a strategic distributorship agreement with International Game Technology ("IGT"), a global leader in casino gaming industry which shares are listed on the New York Stock Exchange, in August 2014 for sales and distribution of LMG machines in the U.S. and the Canada markets. Separately, the Group has also signed a multi-year distribution agreement with Ainsworth Game Technology ("Ainsworth"), a listed company in the Australia Stock Exchange, for the exclusive sales of Fully Automated Multi Game system in Australia.

PROSPECTS

Going forward, the Group will continue to drive growth on both fronts. We will continue to ramp up the table yield at Casino Waldo while reducing the overheads by deploying our proprietary LMG machines. In the meantime, Casino Kam Pek Paradise will continue its marketing efforts to attract the rising number of day-trippers to Macau with the aim of growing in tandem with the market. Meanwhile, both MJC Casino and the LMG Terminal Zone at Lisboa Casino are expected to be self-sufficient this year.

For the Group's sales and revenue sharing of LMG terminals business, we expect the opening of two new casinos and the replenishment order for the previous generation LMG terminals to contribute meaningfully to the Group this year. The Company will also see more traction in the overseas market through our associations with the industry's global heavyweights such as IGT and Ainsworth.

The Group is proud to announce that 24 Live Multi Game terminals on trial at The Palazzo in Las Vegas have been successfully converted into an outright sale in February 2015. This marks the first sale of LMG terminals in the U.S. gaming market and an important milestone for the Company in its effort to penetrate the largest gaming machines market in the world. Our patent-protected LMG terminals serve to improve the efficiency and productivity of casino operations by lowering the average cost per player, and we believe, much like Macau, the LMG terminals will soon gain acceptance throughout the U.S. gaming industry.

On 9 March 2015, the Group was selected to join several stock indexes namely the Hang Seng Broad Consumption Index, the Hang Seng Global Composite Index and the Hang Seng Composite Index. The inclusion in several of these Hang Seng's key indexes represent an important recognition of the Group's business growth from Hang Seng, and that will also create more awareness of the Group's equity and potentially improve the liquidity of trading in the Company's shares.

Overall, the Board expects the Group's core competency in casino services and sales and revenue sharing of LMG terminals will continue to enable the Company to distinguish itself among the peers and outperform the general market.

Liquidity and Financial Resources

As at 31 December 2014, the Group's finance lease and promissory note stood at HK\$188,000 and HK\$67,642,000, respectively, of which HK\$123,000 and nil, respectively, were payable within 12 months. Current liabilities of the Group decreased from HK\$168,678,000 to HK\$156,088,000, representing a decrease of approximately 7.5%. The Group's total liabilities decreased from HK\$307,035,000 to HK\$223,795,000, representing a decrease of approximately 27.1%.

As at 31 December 2014, the cash on hand and available financial resources were sufficient for financing ongoing activities of the Group.

Chairman's Statement

Gearing Ratio

The Group's gearing ratio (defined as the ratio of total outstanding interest bearing borrowing less cash and cash equivalents to total assets (excluding cash and cash equivalents)) as at 31 December 2014 was nil (2013: nil).

Contingent liabilities

Particulars of the Company's significant contingent liabilities as at 31 December 2014 and 2013 are set out in note 29 to the consolidated financial statements.

Capital commitments

Particulars of the Company's significant capital commitments as at 31 December 2014 and 2013 are set out in note 31 to the consolidated financial statements.

Foreign Exchange Exposure

The Group's operations are primarily based in Macau and the income derived and expenses incurred are denominated in Macau Pataca ("MOP"). On the other hand, the expenses of the headquarters in Hong Kong and the subsidiaries in China are denominated in Hong Kong dollars ("HK\$") and Renminbi ("RMB"), respectively, and are financed by funds raised from the operations in Macau. Due to the stable exchange rates between RMB and HK\$ and between MOP and HK\$, the Directors do not consider specific hedges for currency fluctuation necessary.

Charges on Group Assets

As at 31 December 2014, the assets of the Group which were subject to charges for securing obligations under finance lease comprised a motor vehicle with net carrying value of approximately HK\$190,000 (2013: HK\$324,000).

Organization and Staff

The Group had 453 staff (2013: 368) as at 31 December 2014. A majority of the staff are operational staff and marketing executives in Macau. The Group is actively seeking talents in Macau, Hong Kong and China in order to cope with its fast growing operations.

The terms of employment of the staff, executives and Directors conform to normal commercial practice. The emolument policy for the employees of the Group is principally set up by the Board on the basis of their merit, qualifications, competence and the Group's operating results. Share options are granted to and included in the terms of selected senior executives of the Company.

APPRECIATION

On behalf of the Board, I would like to thank our shareholders, bankers, professional parties and customers for their continuous support. I would also like to thank our executives and staff for their dedication and professionalism.

By Order of the Board

All the 1,936,000 repurchased shares were cancelled in January 2015. Save as disclosed, there is no event after the reporting period which is required to be disclosed.

FIVE YEAR FINANCIAL SUMMARY

A summary of the results and assets and liabilities of the Group for the last five financial years is set out on page 94 of this report.

AUDITORS

A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint PAN-CHINA (H.K.) CPA LIMITED as the auditors of the Company.

On behalf of the Board

Jay Chun

Chairman and Managing Director

Hong Kong, 27 March 2015

Corporate Governance Report

The Board believes that corporate governance is essential to the success of the Company and has adopted various measures to ensure that a high standard of corporate governance is maintained to safeguard the interests of shareholders of the Company.

In the opinion of the Board, the Company has complied with the code provisions as set out in the Code throughout the year ended 31 December 2014 except for certain deviations disclosed herein.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code as the code of conduct regarding securities transactions by the Directors. Having made specific enquiry of all Directors, all Directors have confirmed that they had fully complied with the required standard set out in the Model Code during the year.

BOARD OF DIRECTORS

The Board is responsible for the leadership and control of the Group, overseeing the Group's businesses, strategic decisions and performance, evaluating the performance of the Group and supervising the management. In addition, the Board reserves the authority to make final decisions for all major matters of the Company, including approving and monitoring of budgets, internal control and risk management, dividend payout, material transaction, preparation and release of financial information, appointment of Directors, and other significant financial and operational matters. The Board is also responsible for performing the corporate governance duties set out in code provision D.3.1 of the Code.

During the year under review, the Board reviewed the compliance of the Model Code and disclosure in this Corporate Governance Report including the board diversity policy.

In order to enhance efficiency, the Board has delegated the day-to-day responsibilities and operations to the executive Directors and senior management who perform their duties under the leadership of the Managing Director.

During the year, the Board held four meetings.

Corporate Governance Report

The members of the Board and the attendance of each member at Board meetings and the annual general meeting held on 13 June 2014 are as follows:

Directors	Number of attendance	
	Board meetings	Annual general meeting held on 13 June 2014
Executive Directors:		
Mr. Jay Chun (<i>Chairman and Managing Director</i>)	4/4	0/1
Mr. Shan Shiyong, alias, Sin Sai Yung	0/4	0/1
Mr. Hu Liming	0/4	0/1
Independent Non-executive Directors:		
Mr. Kai-Shing Tao (appointed on 13 April 2014)	0/2	0/1
Mr. Li John Zongyang	4/4	0/1
Ms. Tang Kiu Sam Alice (appointed on 25 April 2014)	1/1	0/1
Mr. Frank Hu (resigned on 13 April 2014)	1/2	0/0
Mr. Kuan Hin Meng (resigned on 25 April 2014)	0/3	0/0

Given the nature and business objective of the Company, the Board has a balance of skill and experience appropriate for the requirements of the business of the Company. The list of Directors and their respective biographies are set out on pages 6 and 7 of this annual report.

CHAIRMAN AND MANAGING DIRECTOR

Mr. Jay Chun is the Chairman and the Managing Director of the Company. In the opinion of the Board, the roles of the managing director and the chief executive officer are the same. Although under code provision A.2.1 of the Code, the roles of the Chairman and chief executive officer should be separate and should not be performed by the same individual, the Board considers that the present structure provides the Group with strong and consistent leadership and allows for efficient and effective business planning and execution. Hence, the Board believes that it is in the best interest of the shareholders of the Company that Mr. Jay Chun will continue to assume the roles of the Chairman of the Board and the Managing Director of the Company. However, the Company will review the current structure as and when it becomes appropriate in future.

Pursuant to code provision E.1.2 of the Code, the Chairman of the Board, and the chairman of the audit committee, the remuneration committee, the nomination committee and any other committee should attend the annual general meeting. However, the annual general meeting held on 13 June 2014 was chaired by a shareholder of the Company, instead of Mr. Jay Chun or the chairman of the audit committee, remuneration committee, nomination committee and any other committee. Mr. Jay Chun and the chairman of the audit committee, remuneration committee and nomination committee were unable to attend the annual general meeting as they were engaged in other commitments of the Company.

Corporate Governance Report

INDEPENDENT NON-EXECUTIVE DIRECTORS

In accordance with code provision A.4.1 of the Code, non-executive directors should be appointed for a specific term, subject to re-election. Currently, none of the independent non-executive Directors is appointed for a specific term. However, all Directors (including the independent non-executive Directors) are subject to retirement by rotation at least once every three years at the annual general meeting of the Company in accordance with the provision of the Bye-Laws of the Company, and their terms of appointment will be reviewed when they are due for re-election.

DIRECTORS' TRAINING AND PROFESSIONAL DEVELOPMENT

Directors are continually updated on the latest development and changes in the Listing Rules, the Code and other regulatory requirements in order to ensure the compliance with the same by the Directors.

Directors are also encouraged to participate in professional development courses and seminars to develop and refresh their knowledge and skills. All Directors had provided a record of training they received during the year to the Company. According to the training records provided by the Directors, the training attended by them during the year is summarized as follows:

NOMINATION COMMITTEE

The nomination committee of the Company (the “Nomination Committee”) is responsible for determining the policy for the nomination of Directors, reviewing the size and composition of the Board regularly and making recommendations on any proposed changes to the Board to complement the Company’s corporate strategy and the board diversity policy. Its duties include identification and nomination of candidates to fill casual vacancies of Directors and succession planning for the Chairman. The Nomination Committee is also responsible for assessing the independence of independent non-executive Directors.

In 2013, the Board adopted a board diversity policy setting out the approach to diversity of members of the Board. The Company recognises and embraces the benefits of diversity of Board members. It endeavours to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company’s business. All Board appointments will continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, experience (professional or otherwise), skills and knowledge. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board.

Please refer to the terms of reference of the Nomination Committee published on the websites of the Stock Exchange and the Company for the roles and functions of the Nomination Committee.

During the year, the Nomination Committee held three meeting to review the independence of each independent non-executive Director and the nomination of two independent non-executive Directors. Members of the Nomination Committee and the attendance of each member are as follows:

Directors	Number of attendance

ACCOUNTABILITY

The Directors are responsible for preparation of financial statements which give true and fair view of the state of affairs, the results of operations and cash flows of the Group in compliance with applicable statutory and regulatory requirements. In preparation of the financial statements for the six months ended 30 June 2014 and for the year ended 31 December 2014, the Directors have adopted suitable accounting policies and applied them consistently. The financial statements for the year ended 31 December 2014 have been prepared on going concern basis.

INTERNAL CONTROLS

The Board has, through the Audit Committee, conducted interim and annual review of the effectiveness of the internal control system of the Group covering financial, operational and procedural compliance. The internal control system is designed to provide reasonable, but not absolute, assurance of no material misstatement or loss and to manage rather than eliminate risks of failure in operational systems and achievements of the Group's objectives.

SHAREHOLDERS' RIGHTS

As one of the measures to safeguard shareholders' interests and rights, separate resolutions are proposed at shareholders' meetings on each substantial issue, including the election of individual Directors, for shareholders' consideration and voting. All resolutions put forward at shareholders' meetings will be voted by poll pursuant to the Listing Rules and the poll results will be published on the websites of the Stock Exchange and the Company at "www.hkexnews.hk" and "www.hk1180.com", respectively, after the relevant shareholders' meetings.

Right to convene extraordinary general meeting

Shareholders of the Company may request to convene a special general meeting. According to bye-law 58 of the Company's Bye-Laws, shareholders holding at the date of deposit of the requisition not less than one-tenth (10%) of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the company secretary of the Company (the "Company Secretary"), to require a special general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If the Board fails to proceed to convene such meeting within twenty-one days of such deposit, the requisitionists themselves may do so in accordance with the provisions of Section 74 of the Companies Act 1981 of Bermuda.

Corporate Governance Report

Right to put enquiries to the Board

Shareholders have the right to put enquiries to the Board. All enquiries shall be in writing and sent by post, together with his/her contact details, such as postal address, email or fax, to the principal office of the Company in Hong Kong for the attention of the Company Secretary.

Right to put forward proposals at general meetings

Shareholders may put forward proposals at general meetings of the Company by sending the same to the principal office of the Company in Hong Kong, specifying his/her information, contact details and the proposal(s) he/she intends to put forward at the general meeting regarding any specified transaction/business and the supporting documents.

MEMORANDUM OF ASSOCIATION AND BYE-LAWS OF THE COMPANY

During the year, no amendment was made to the Memorandum of Association and Bye-Laws of the Company.

Independent Auditors' Report

PAN-CHINA (H.K.) CPA LIMITED Certified Public Accountants

天健(香港)會計師事務所有限公司

TO THE MEMBERS OF PARADISE ENTERTAINMENT LIMITED

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Paradise Entertainment Limited (the “Company”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 26 to 93, which comprise the consolidated statement of financial position as at 31 December 2014, and the consolidated statement of profit or loss, the consolidated statement of other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirement of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditors' Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2014 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

1. GENERAL INFORMATION

Paradise Entertainment Limited (the “Company”) was incorporated in Bermuda as an exempted company with limited liability under the Companies Act of Bermuda and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The addresses of the registered office and the principal place of business of the Company are disclosed in the “Corporate Information” section in the annual report.

The Company is an investment holding company. The principal activities of the Company’s subsidiaries (hereinafter collectively referred to as the “Group”) are set out in note 34.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is the same as the functional currency of the Company.

2. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

The Group has applied the following amendments to HKFRSs and a new interpretation issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time in the current year:

New and amended standards and interpretations that are mandatorily effective for the current year

Amendments to HKFRS 10, HKFRS 12 and HKAS 27	<i>Investment Entities</i>
Amendments to HKAS 32	<i>Offsetting Financial Assets and Financial Liabilities</i>
Amendments to HKAS 36	<i>Recoverable Amount Disclosures for Non-Financial Assets</i>
Amendments to HKAS 39	<i>Novation of Derivatives and Continuation of Hedge Accounting</i>
HK (IFRIC) 21	<i>Levies</i>

The directors of the Company (the “Directors”) consider that the application of the new and revised HKFRSs and HKASs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in the consolidated financial statements.

In addition, the Hong Kong Companies Ordinance (Cap. 622) will affect the presentation and disclosure of certain information in the consolidated financial statements for the year ending 31 December 2015. The Group is in the process of making an assessment of expected impact of these changes.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

2. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amended standards and interpretations in issue but not yet effective

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective:

Amendments to HKFRS 11	<i>Accounting for Acquisitions of Interests in Joint Operations⁵</i>
Amendments to HKAS 16 and HKAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortisation⁵</i>
Amendments to HKAS 16 and HKAS 41	<i>Agriculture: Bearer Plants⁵</i>
Amendments to HKAS 19	<i>Defined Benefit Plans: Employee Contributions⁴</i>
Amendments to HKAS 27	<i>Equity Method in Separate Financial Statements⁵</i>
Amendments to HKFRSs	<i>Annual Improvements to HKFRSs 2010-2012 Cycle⁶</i>
Amendments to HKFRSs	<i>Annual Improvements to HKFRSs 2011-2013 Cycle⁴</i>
Amendments to HKFRSs	<i>Annual Improvements to HKFRSs 2012-2014 Cycle⁵</i>
Amendments to HKFRS 10 and HKAS 28	<i>Sales or Contributions of Assets between an Investor and its Associate or Joint Venture⁵</i>
Amendments to HKFRS 10, HKFRS 12 and HKAS 28	<i>Investment Entities: Applying the Consolidation Exception⁵</i>
Amendments to HKAS 1	<i>Disclosure Initiative⁵</i>
HKFRS 9	<i>Financial Instruments¹</i>
HKFRS 14	<i>Regulatory Deferral Accounts²</i>
HKFRS 15	<i>Revenue from Contracts with Customers³</i>

¹ Effective for annual periods beginning on or after 1 January 2018

² Effective for first annual HKFRS financial statements beginning on or after 1 January 2016

³ Effective for annual periods beginning on or after 1 January 2017

⁴ Effective for annual periods beginning on or after 1 July 2014

⁵ Effective for annual periods beginning on or after 1 January 2016

⁶ Effective for annual periods beginning on or after 1 July 2014, with limited exceptions

HKFRS 9 Financial Instruments

HKFRS 9 (2014) introduces new requirements for classification and measurement of financial instruments, a new expected credit loss model that replaces the incurred loss impairment model used in HKAS 39, and a new hedge accounting model which represents a substantial overhaul of hedge accounting that will enable entities to better reflect their risk management activities in their financial statements. The adoption of HKFRS 9 (2014) may have an effect on the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the financial effect on the Group's financial statements until a detailed review has been completed.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

2. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amended standards and interpretations in issue but not yet effective (Continued)

HKFRS 15 Revenue from Contracts with Customers

HKFRS 15 Revenue from Contracts with Customers was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and the related interpretations. The Directors anticipate that the application of HKFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Group’s consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the financial effect until the Group performs a detailed review.

Apart from the aforementioned, the Directors consider that the adoption of the other new standards and amendments to standards is not expected to have any significant impact on the results and financial position of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with the following accounting policies which conform to HKFRSs. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The consolidated financial statements are prepared in accordance with the applicable disclosure requirements of the predecessor Hong Kong Companies Ordinance (Cap. 32) for this financial year and the comparative period.

(b) Basis of preparation of the consolidated financial statements

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below:

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payments transactions that are within the scope of HKFRS 2 “Share-based Payment”, leasing transactions that are within the scope of HKAS 17 “Leases” and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of Assets”.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Basis of preparation of the consolidated financial statements (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(c) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Basis of consolidation (Continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(d) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Investments in subsidiaries

The Company's investment in subsidiaries are stated on the statement of financial position of the Company at cost less any identified impairment losses. The results of subsidiaries are included in the Company's profit or loss to the extent of dividends received and receivables.

(f) Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate of the Group (such as a sale or contribution of assets), profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts.

Revenue from gaming operations in respect of net gaming wins and the provision of gaming and related facilities is recognised when the relevant services have been rendered and is measured at the entitlement of economic inflows of the Group from the business.

Revenue from the sales of goods is recognised when the goods are delivered and the title has passed.

Interest income is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

The Group's policy for recognition of revenue from operating leases is described under the accounting policy of leasing.

(h) Property, plant and equipment

Property, plant and equipment including land and buildings held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is provided to write off the cost of items of property, plant and equipment over their estimated useful lives and after taking into account their estimated residual value, using the straight-line method. The estimated useful lives, residual value and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated statement of profit or loss in the year in which the item is derecognised.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

The Group as lessee

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss.

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease.

(j) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are included in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(k) Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

(l) Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme, stated-managed retirement benefit schemes and other relevant defined contribution retirement benefit plans are charged as an expense when employees have rendered the service entitling them to the contributions.

(m) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year and other comprehensive income. Taxable profit differs from 'profit or loss before tax' as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising from investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Taxation (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current or deferred tax are recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity respectively.

(n) Intangible assets

Intangible assets acquired separately and with finite useful lives are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives.

Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit or loss when the asset is derecognised.

(o) Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

(p) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business less all the estimated cost of completion and costs necessary to make the sale.

(q) Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provision of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Financial instruments (Continued)

Financial assets

The Group's financial assets are classified into financial assets at fair value through profit or loss ("FVTPL") and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. The accounting policies adopted in respect of each category of financial assets are set out below.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL of which interest income is included in net gains or losses.

Financial assets at FVTPL

Financial assets at FVTPL have two subcategories, including financial assets held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets and is included in the other gains and losses.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Financial instruments (Continued)

Financial assets (Continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At the end of each of the reporting periods subsequent to initial recognition, loans and receivables (including debtors, deposits, other debtors and prepayments and cash and cash equivalents) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

Impairment loss on financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each of the reporting periods. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been impacted.

For all of the Group's financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial assets because of financial difficulties.

For certain categories of financial asset, such as trade debtors, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, an impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade debtors, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a debt is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Financial instruments (Continued)

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognitions.

Interest expense is recognised on an effective interest basis.

Other financial liabilities

Other financial liabilities including creditors and accrued charges, amounts due to directors, obligations under finance leases, convertible loans and promissory note are subsequently measured at amortised cost, using the effective interest method.

Convertible loans

Convertible loans issued by the Group that contain both the liability and conversion option components are classified separately into respective items on initial recognition. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is classified as an equity instrument.

On initial recognition, the fair value of the liability component is determined using the prevailing market interest of similar non-convertible debts. The difference between the gross proceeds of the issue of the convertible loans and the fair value assigned to the liability component, representing the conversion option for the holder to convert the convertible loans into equity, is included in equity (convertible loans reserve).

In subsequent periods, the liability component of the convertible loans is carried at amortised cost using the effective interest method. The equity component, representing the option to convert the liability component into ordinary shares of the Company, will remain in convertible loans reserve until the embedded option is exercised (in which case the balance stated in convertible loans reserve will be transferred to share premium). Where the option remains unexercised at the expiry date, the balance stated in convertible loans reserve will be released to the accumulated losses. No gain or loss is recognised in profit or loss upon conversion or expiration of the option.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Financial instruments (Continued)

Financial liabilities and equity (Continued)

Convertible loans (Continued)

Transaction costs that relate to the issue of the convertible loans are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are charged directly to equity. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the convertible loans using the effective interest method.

Warrants

Warrants issued by the Company that will be settled by a fixed amount of cash for a fixed number of the Company's own equity instruments are an equity instrument. Otherwise, they would be classified as derivative financial instruments, which are recognised at their fair values at the date of issue.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The Group's financial liabilities are generally classified into other financial liabilities.

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised as deduction directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each of the reporting periods. The resulting gain or loss is recognised in profit or loss immediately.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised directly in equity is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

(q) Financial instruments (Continued)

Share-based payment transactions

Equity-settled share-based payment transactions

Share options granted to directors and employees

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over the vesting period with a corresponding increase in equity (option reserve).

At the end of each reporting periods, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the estimates during the vesting period, if any, is recognised in profit or loss, with a corresponding adjustment to option reserve.

At the time when the share options are exercised, the amount previously recognised in option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in option reserve will be transferred to accumulated losses.

Share options granted to other participants

For share options granted to parties other than employees in exchange for services, they are measured at the fair values of the services received, unless fair value cannot be reliably measured, in which case the goods or services received are measured by reference to the fair value of the share options granted. The fair values of the services received are recognised as expenses with a corresponding increase in equity (share options reserve), and when the counterparties render services, unless the services qualify for recognitions of assets.

(r) Impairment losses on tangible and intangible assets

At the end of each of the reporting periods, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. In addition, intangible assets not yet available for use are tested for impairment annually, and whenever there is an indication that they may be impaired. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some of all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(t) Related parties

A related party is a person or entity that is related to the entity that is preparing its consolidated financial statements.

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
 - (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
 - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of the Group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(t) Related parties (Continued)

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Estimated useful lives and impairment loss for property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and identified impairment losses. The estimation of useful lives impacts the level of annual depreciation expenses recorded. Property, plant and equipment are evaluated for possible impairment on a specific asset basis or in groups of similar assets, as applicable. This process requires management's estimate of future cash flows generated by each asset or group of assets. For any instance where this evaluation process indicates impairment, the relevant asset's carrying amount is written down to the recoverable amount and the amount of the write-down is charged against the consolidated statement of profit or loss.

(b) Impairment loss for intangible assets

In connection with the carrying amount of intangible assets, the Group performs ongoing evaluation of the status of the underlying drug projects concerned. Sensitivity analysis has been carried out on its assumptions regarding future market shares and anticipated margins on these drugs and gaming projects independently and the Group believes that adequate provision for impairment was made on the carrying amount of intangible assets. The situation will be closely monitored, and adjustments will be made in future periods, if future market activity indicates that such adjustments are appropriate.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(c) Impairment loss for debtors

The policy for making impairment loss on debtors of the Group is based on the evaluation of collectability and aging analysis of accounts and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each debtor. If the financial conditions of debtors of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional impairment loss may be required.

(d) Share-based payment expenses

The fair value of the share options granted to the directors, employees and consultants determined at the date of grant of the respective share options is expensed over the vesting period, with a corresponding adjustment to the Group's option reserve. In assessing the fair value of the share options, the generally accepted option pricing models were used to calculate the fair value of the share options. The option pricing models require the input of subjective assumptions, including the expected dividend yield and expected life of options. Any changes in these assumptions can significantly affect the estimate of the fair value of the share options.

(e) Measurement of promissory note

On issue of promissory notes, the fair value is determined using a market rate for an equivalent loan and this amount is carried at amortised cost basis until extinguished on redemption or cancellation.

(f) Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, which includes the convertible loans and promissory note as disclosed in notes 23 and 24 respectively, cash and cash equivalents and equity of the Company, comprising issued share capital disclosed in note 26 and reserves as disclosed in consolidated statement of changes in equity. The management reviews the capital structure by considering the cost of capital and the risks associated with each class of capital. In view of this, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as make new borrowings or repayment of existing borrowings. The Group's approach to capital management remained unchanged throughout the year.

6. FINANCIAL RISK MANAGEMENT

A. Financial risk, management objectives and policies

The Group's major financial instruments include debtors and deposits; cash and cash equivalents; creditors and accrued charges; amounts due to directors; other borrowings; obligations under finance leases; convertible loans and promissory note. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

Market risk

(a) Currency risk

Currency risk refers to the risk that movement in foreign currency rate will affect the Group's financial results and its cash flow. The management considers the Group is not exposed to significant foreign currency risk as the majority of its operations and transactions are denominated in the functional currencies of the Group entity. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. However, the Group monitors its foreign currency exposure and will consider hedging significant foreign currency exposure should the need arise.

(b) Interest rate risk

The Group's exposure to interest-rate risk arises from its bank deposits, other borrowings, obligations under finance leases, convertible loans and promissory note. The bank deposits bear interests at variable rates depending on the prevailing market condition. The other borrowings, obligations under finance leases, convertible loans and promissory note bear interests at fixed rates and therefore expose the Group to fair value interest rate risks.

The Group's result is not sensitive to changes in interest rate as the Group's other borrowings, obligations under finance leases, convertible loans and promissory note are at fixed interest rates and the interest income generated from bank deposits is insignificant.

Credit risk

The carrying amounts of debtors and deposits and cash and cash equivalents included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

The Group has no significant concentrations of credit risk.

The credit quality of the counterparties in respect of debtors and deposits, is assessed by taking into account their financial position, credit history and other factors. Given the constant repayment history, the directors are of the opinion that the risk of default by these counterparties is low.

The credit risk on cash and cash equivalents is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies and the PRC large state-controlled banks.

6. FINANCIAL RISK MANAGEMENT (Continued)

A. Financial risk, management objectives and policies (Continued)

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The ultimate responsibility for liquidity risk management rests with the board of directors, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements.

The following table details the Group's remaining contractual maturity for its financial liabilities. For non-derivative financial liabilities, the table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

6. FINANCIAL RISK MANAGEMENT (Continued)

B. Fair value of financial assets and financial liabilities

The fair values of financial assets and financial liabilities are determined as follows:

- the fair values of financial assets and financial liabilities with standard terms and conditions and traded in active liquid markets are determined with reference to quoted market bid prices and ask prices, respectively;
- the fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- the fair values of derivative instruments are calculated using quoted prices. Where such prices are not available, discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

The carrying amounts of financial assets and financial liabilities (excluding liability component of convertible loans) reported in the consolidated statement of financial position approximate their fair values due to their immediate or short-term maturities.

The directors consider that the carrying amounts of liability component of convertible loans recorded at amortised cost in the consolidated financial statements approximate their fair values because of the borrowing rate currently available for convertible loans with similar terms and maturities.

7. TURNOVER AND SEGMENT INFORMATION

The Group's operating segments, based on information reported to the board of directors of the Company, being the chief operating decision maker ("CODM"), for the purposes of resources allocation and assessment of segment performance. The Group's operating and reportable segments which are organised into business units based on their products and services are as follows:

Casino service	–	Provision of management services to casinos in Macau
Gaming system	–	Development, provision and sales of electronic gaming system

The Group monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements. Group financing (including finance costs) is managed on a group basis and is not allocated to operating segments.

The following tables present revenue and profit information regarding the Group's reportable and operating segments reported to CODM for the purposes of resources allocation and assessment of segment performance for the year ended 31 December 2014 and 2013, respectively.

10. INCOME TAX CREDIT/(EXPENSES) (Continued)

(iii) Macau Complementary Tax (Continued)

Pursuant to the Dispatch of the Macau Financial Services bureau dated 18 February 2015, LT (Macau) Limited, a wholly-owned subsidiary of the Company, is allowed to pay an annual lump sum dividend withholding tax of approximately MOP341,000 (equivalent to approximately HK\$331,000) for each of the years ended 31 December 2012 through to 2016 as payment in lieu of Macau Complementary Tax otherwise due by the shareholders of LT (Macau) Limited on dividend distributions from gaming profits generated in relation to the operation of the casinos at Casino Kam Pek Paradise, Lisboa Casino and Casino Macau Jockey Club. Such annual lump sum tax payments are required regardless of whether dividends were actually distributed or whether LT (Macau) Limited has distributable profits in the relevant years. During the year ended 31 December 2014, provision for taxation of HK\$1,000,000 has been recognised which was charged to the consolidated statement of profit or loss.

The charge for the year that can be reconciled with the profit before tax per consolidated statement of profit or loss is as follows:

	2014 HK\$'000	2013 HK\$'000
Profit before tax	44,888	103,789
Tax at Macau Complementary Tax rate of 12% (note below)	5,386	12,455

16. INTANGIBLE ASSETS (Continued)

- (a) It represents the exclusive rights to use certain technologies acquired for the manufacture of certain biopharmaceutical products which were fully amortised in prior years.
- (b) The patent relates to a computerized system (the "System") for operating multi gambling games. The System was installed in Casino Kam Pek Paradise and other casinos in Macau. The Group generates revenue from sharing net gaming win with casino owners under income-sharing agreements and distributing electronic gaming machines with the System in Macau.

The patent was acquired during the year 2010 from Mr Jay Chun, the Chairman and an executive director of the Company, for a total consideration of HK\$280,000,000 comprising cash of HK\$30,000,000 and a promissory note of HK\$250,000,000.

The fair value of the patent as at the acquisition date was determined at HK\$288,000,000 by the directors of the Company with reference to a valuation on the patent conducted by an independent professional valuer, Ample Appraisal Limited, under the income-based approach.

The cost of the patent was determined by the directors of the Company and represents the sum of the cash consideration, the amortised cost of the promissory note at the acquisition date using the effective interest method (note 24) and the capitalised transaction cost of the issuance of the promissory note. The patent is amortised over its useful life of 15 years using the straight line method.

At the end of each reporting period, the directors of the Company conducted an impairment assessment and consider that there was no impairment to the carrying amount of the patent as at the end of the reporting period, with reference to a valuation on the patent conducted by an independent professional valuer, International Valuation Limited, under the income-based approach.

- (c) The amount represents various patents and patent applications in the United States of America (the "US") of a computerized system (the "System") for operating multi gambling games. The Group generates revenue from the sale of electronic gaming machines with the System in the US.

The patent was acquired during the year 2013 from Mr. Jay Chun, the Chairman and an executive director of the Company, for a total consideration of HK\$740,000,000 comprising cash of HK\$60,000,000, a promissory note of HK\$200,000,000 and consideration shares of HK\$480,000,000.

The fair value of the patent as at the acquisition date was determined at HK\$819,000,000 by the directors of the Company with reference to a valuation on the patent conducted by an independent professional valuer, Ample Appraisal Limited, under the income-based approach.

The cost of the patent was determined by the directors of the Company and represents the sum of the cash consideration, the amortised cost of the promissory note at the acquisition date using the effective interest method (note 24), the capitalised transaction cost of the issuance of the promissory note and issue price of consideration shares. The patent is amortised over its useful life of 12 years using the straight line method.

At the end of each reporting period, the directors of the Company conducted an impairment assessment and consider that there was no impairment to the carrying amount of the patent as at the end of the reporting period, with reference to a valuation on the patent conducted by an independent professional valuer, International Valuation Limited, under the income-based approach.

23. CONVERTIBLE LOANS (Continued)

Pursuant to a subscription agreement dated 20 January 2010, the Company agreed to issue convertible notes with principal value of US\$85,500,000 (or approximately HK\$662,625,000) on 21 April 2010 (“CN2”) to Pioneer Link Associates Limited (“Pioneer Link”). Pioneer Link is entitled to convert the principal amount in whole or in part of HK\$662,625,000 into new ordinary shares of the Company, at a conversion price being the higher of (i) the average of the closing price of the shares of any three consecutive trading days (as selected by the debenture holder) within the sixty trading days immediately prior to the conversion date and (ii) the par value for the time being of the shares, which is HK\$0.10, and at any time between the date of issue of CN2 and 31 December 2014. If CN2 are not converted before 31 December 2014, they will be redeemed at par on 31 December 2014. CN2 bear interests at 8% per annum payable quarterly on or before the fifth business day of January, April, July and October in each year until their settlement date. Details of CN2 are set out in the Company’s circular dated 16 March 2010 and announcements dated 21 January 2010, 1 March 2010, 1 April 2010, 21 April 2010 and 23 April 2010.

On 21 April 2010, the Company received a partial payment of HK\$88,700,000 for CN2. Pioneer Link failed to complete the subscription agreement on or before the intended completion date of 21 April 2010. A supplemental agreement was entered into between the Company and Pioneer Link to further extend the completion date to 21 October 2010.

Up to 21 October 2010, the Company had received an aggregate amount of HK\$138,500,000 representing partial payment of the consideration for CN2. A supplemental agreement was entered into between the Company and Pioneer Link to further extend the completion date to 21 October 2011. Up to 19 November 2010, the Company had received an aggregate amount of HK\$153,500,000 representing partial payment of the consideration for CN2. Details are set out in the Company’s announcements dated 21 October 2010, 2 November 2010 and 19 November 2010.

Up to 21 October 2011, the completion date of the supplemental agreement, the Company had received an aggregate amount of HK\$207,500,000 representing partial payment of the consideration for CN2. Subscription monies of HK\$455,125,000 remained unpaid by Pioneer Link and no new convertible notes will be issued thereto under the contract.

Pursuant to a subscription agreement dated 20 January 2010, the Company issued convertible notes with principal value of US\$1,000,000 (or approximately HK\$7,750,000) on 20 April 2010 (“CN3”) to Trueworthy Group Limited (“Trueworthy”). Trueworthy is entitled to convert the principal amount in whole or in part of HK\$7,750,000 into new ordinary shares of the Company, at a conversion price being the higher of (i) the average of the closing price of the shares of any three consecutive trading days (as selected by the debenture holder) within the sixty trading days immediately prior to the conversion date and (ii) the par value for the time being of the shares, which is HK\$0.10, and at any time between the date of issue of CN3 and 31 December 2014. If CN3 are not converted before 31 December 2014, they will be redeemed at par on 31 December 2014. CN3 bear interests at 8% per annum payable quarterly on or before the fifth business day of January, April, July and October in each year until their settlement date. Details of CN3 are set out in the Company’s circular dated 16 March 2010 and announcements dated 21 January 2010, 1 March 2010, 1 April 2010 and 21 April 2010.

23. CONVERTIBLE LOANS (Continued)

The fair values of the debt element and the conversion options element of CN1, CN2 and CN3 are determined by the directors of the Company with reference to the valuation performed by Ample Appraisal Limited, an independent firm of professional valuers based on the discounted cash flow method.

The net proceeds received from the issue of CN1, CN2 and CN3 have been split between the liability components and equity components, as follows:

	CN1 HK\$'000	CN2 HK\$'000	CN3 HK\$'000	Total HK\$'000
Nominal values of convertible loans issued	116,000	207,500	7,752	331,252
Transaction costs	(2,050)	–	–	(2,050)
Equity components	(16,933)	(15,411)	(1,132)	(33,476)
Liability components at date of issue	97,017	192,089	6,620	295,726

The movement of liability components of the convertible loans for the two years ended 31 December 2014 and 2013 is set out below:

	CN1 HK\$'000	CN2 HK\$'000	CN3 HK\$'000	Total HK\$'000
Liability components at 1 January 2013	23,459	56,265	7,209	86,933
Interest charged (note 9)	1,808	3,056	590	5,454
Interest paid	(1,583)	(2,681)	(425)	(4,689)
Converted into shares of the Company	(23,684)	(56,640)	(7,374)	(87,698)
Liability components at 31 December 2013 and 31 December 2014	–	–	–	–

The interests charged for the year for CN1, CN2 and CN3 are calculated by applying the effective interest rates of 9.17%, 8.64% and 11.92% in 2013, respectively to the liability components.

During the year ended 31 December 2013, the convertible noteholders for CN1, CN2 and CN3 converted all of the outstanding convertible notes into 310,000,000 shares of HK\$0.01 each in the Company in May 2013 and 62,997,708 shares of HK\$0.001 each in the Company in September 2013 and October 2013.

24. PROMISSORY NOTE

	2014 HK\$'000	2013 HK\$'000
At 1 January	126,170	–
At the date of issue (note i)	–	117,535
Interest charged (note 9)	8,342	8,635
Early redemption during the year (note ii)	(66,870)	–
At 31 December	67,642	126,170

Notes:

- (i) The Promissory Note is measured at amortised cost using the effective interest method with the effective interest rate at 13.36% per annum.

On 19 June 2013, the Group issued a promissory note with a principal amount of HK\$200,000,000 to Mr. Jay Chun, the Chairman and an executive director of the Company, as part of the consideration for the Group's acquisition of patents and patent applications in the US in relation to a betting terminal system. The promissory note is unsecured, non-interest bearing and has a maturity period of 4 years from the date of issue but can be repaid in whole or in part before maturity at the discretion of the Company. Early redemption of the promissory note shall be subject to discount of the outstanding principal amount as follows: 4% within the first year, 3% within the second year, 2% within the third year and 1% within the fourth year.

- (ii) During the year ended 31 December 2014, the Group redeemed principal amount of HK\$106,000,000 (2013: Nil). The loss on early redemption of the promissory note amounted to HK\$34,890,000 (2013 : Nil) representing the difference between the discounted repayment amount and the respective carrying amount at the date of redemption which has charged to the consolidated statement of profit or loss for the year.

25. DEFERRED TAX LIABILITIES

The movements in deferred tax liabilities which mainly represent accelerated tax depreciation during the year are as follows:

	2014 HK\$'000	2013 HK\$'000
At 1 January	12,000	12,800
Credited to the consolidated statement of profit or loss	(12,000)	(800)
At 31 December	–	12,000

At 31 December 2014, the Group had unused tax losses of approximately HK\$57,415,000 (2013: HK\$57,415,000) available to offset against future taxable profits which may be carried forwards indefinitely. No deferred tax asset has been recognised in respect of such losses due to the unpredictability of future profit streams.

The movements in the authorised and issued share capital of the Company during both years are as following:

- (i) Pursuant to the resolutions passed at the Company's special general meeting held on 3 June 2013, the Company effected the capital reorganisation (the "Capital Reorganisation") which comprised share consolidation, capital reduction, share premium reduction and share subdivision. Immediately upon the Capital Reorganisation becoming effective on 19 June 2013, the authorised share capital of the Company was HK\$1,000,000,000 divided into 1,000,000,000,000 shares of HK\$0.001 each and 315,144,477 shares were in issue.

Details of the Company's Capital Reorganisation are set out in the Company's announcements dated 7 January 2013, 28 February 2013, 18 March 2013, 30 April 2013, 8 May 2013, 3 June 2013 and 19 June 2013 and the Company's circular dated 9 May 2013.

- (ii) Pursuant to a subscription agreement dated 4 November 2013, 33,739,130 new shares of the Company were issued at the subscription price of HK\$2.30 per subscription share.

Details of the issue of the shares are set out in the Company's announcement dated 4 November 2013.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

26. SHARE CAPITAL (Continued)

- (iii) As explained in note 16, during the year ended 31 December 2013, the Company issued 600,000,000 shares of HK\$0.001 each in the Company at the price of HK\$0.8 per share for a total consideration of HK\$480,000,000 as part of the consideration in respect of the acquisition of patents and patent applications in US.
- (iv) Pursuant to a subscription agreement dated 10 August 2013, 45,500,000 unlisted warrants with nominal value of HK\$59,150,000 were issued to Silver Coast Holdings Limited (“Silver Coast”). Silver Coast is entitled to subscribe for up to 45,500,000 new shares of the Company at the subscription price of HK\$1.30 during the one-year subscription period commencing on 22 August 2013 and expiring on 21 August 2014. Details of the issue of unlisted warrants are set out in the Company’s announcement dated 11 August 2013.

35,500,000 unlisted warrants were exercised to subscribe for shares of HK\$0.001 each in the Company during the year ended 31 December 2014 (2013: 10,000,000 unlisted warrants). The Company did not have any outstanding unlisted warrants as at 31 December 2014.
- (v) 3,300,000 share options granted were exercised to subscribe for shares of HK\$0.001 each in the Company during the year ended 31 December 2014 (2013: 3,300,000 share options) and particulars are set out in note 28.
- (vi) As explained in note 23, during the year ended 31 December 2013, the convertible noteholders for CN1, CN2 and CN3 converted all the outstanding convertible notes into 310,000,000 shares of HK\$0.01 each in the Company in May 2013 and 62,997,708 shares of HK\$0.001 each in the Company in September 2013 and October 2013.
- (vii) During the year ended 31 December 2014, the Company repurchased 6,536,000 shares at prices ranging from HK\$2.87 to HK\$2.99 per share at a total consideration of approximately HK\$19,040,000. The 6,536,000 repurchased shares were cancelled during the year. The premium of approximately HK\$19,033,000 on the repurchase of such shares was charged to the share premium account.

All of the shares issued by the Company during both years rank *pari passu* with the then existing shares in all respects.

27. RESERVES

(i) Share premium account

Share premium represents premium arising from the issue of shares at a price in excess of their par value per share and is not distributable but may be applied in paying up unissued shares of the Company to be issued to the shareholders of the Company as fully paid bonus shares or in providing for the premiums payable on the repurchase of shares.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

27. RESERVES (Continued)

(ii) Special reserve represents the aggregate of:

- the difference between the nominal amount of the share capital issued by the Company and the aggregate of the nominal amount of the issued share capital and the share premium account of LifeTec (Holdings) Limited, the subsidiary which was acquired by the Company pursuant to the group reorganisation in 1996, and
- the effects of the capital reduction, share premium cancellation and elimination of accumulated losses which were took place in 1999 and 2013.

(iii) Convertible loans reserve

The convertible loans reserve represents the value of the unexercised equity component of convertible notes issued by the Company recognised in accordance with the Company's accounting policy adopted for convertible loans.

(iv) Share options reserve

The option reserve represents the fair value of the actual or estimated number of unexercised share options granted to employees and consultants of the Group recognised in accordance with the Company's accounting policy adopted for equity-settled share-based payments.

(v) Translation reserve

The translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the Company's accounting policy adopted for foreign currency transactions.

(vi) Warrants reserve

The warrants reserve represents the fair value of the unexercised warrants issued by the Company recognised in accordance with the Company's accounting policy adopted for equity instruments.

28. SHARE-BASED PAYMENTS

Equity-settled share option schemes

The share option scheme adopted by the Company on 15 July 2002 (the "Old Scheme") was expired on 14 July 2007.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

28. SHARE-BASED PAYMENTS (Continued)

Equity-settled share option schemes (Continued)

The Old Scheme expired on 14 July 2007 and was replaced by the existing share option scheme which was adopted by the Company on 30 July 2007 (the “Existing Scheme”) for the purpose of providing incentives or rewards to the Eligible Participants for the contribution to the success of the Group’s operations. All outstanding options granted under the Old Scheme continue to be valid and exercisable in accordance with the terms of the Old Scheme. The Existing Scheme will expire on 29 July 2017.

Initially, the total number of shares in respect of which options may be granted under the Existing Scheme must not in aggregate exceed 10% of the shares in issue as at 30 July 2007, being the date of adoption of the Existing Scheme, without prior approval from the Company’s shareholders. The total number of shares issued and to be issued upon exercise of the options granted to each Eligible Participant in any twelve-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of shares options in excess of this limit is subject to shareholders’ approval in general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s shares at the date of the grant) in excess of HK\$5 million, within any twelve-month period, are subject to shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 21 days from the date of the offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than ten years from the date of the offer of the share options or the expiry date of the Existing Scheme, if earlier.

The exercise price of the share options is determinable by the directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company’s shares on the date of the offer of the share options; (ii) the average Stock Exchange closing price of the Company’s shares for the five trading days immediately preceding the date of the offer; and (iii) the nominal value of the Company’s shares on the date of the offer.

Share options do not confer rights on the holder to dividends or to vote at shareholders’ meetings.

The number of share options outstanding have been adjusted to take into effect of the capital reorganisation effective on 19 June 2013 as set out in note 26.

3,300,000 share options granted were exercised during the year ended 31 December 2014 (2013: 3,300,000 share options).

The share options outstanding as at 31 December 2013 had a weighted average remaining contractual life of 2.08 years.

No equity settled employees benefit (including directors' emoluments) was recognised for the year ended 31 December 2014 (2013: nil).

Share options were granted to certain consultants pursuant to the consultancy agreements entered into between LifeTec (Holdings) Limited, a subsidiary of the Company, and each of the consultants for a period of five years commencing from the respective dates of the consultancy agreements as consideration for the following services to be provided by these consultants:

- (a) identify potential strategic investors and financial investors for the Group;
- (b) assist the Group in negotiating with the potential strategic investors and financial investors;
- (c) provide consultancy services in relation to the development of the gaming business of the Group; and
- (d) carry out other duties as appropriate and as agreed with LifeTec (Holdings) Limited.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

29. CONTINGENT LIABILITIES

At the end of the reporting period, the Company had the following significant outstanding litigation:

- (a) On 15 September 1999, LifeTec Enterprise Limited (“LifeTec Enterprise”), a subsidiary of the Company, was named as a defendant in a High Court action in respect of an alleged failure to repay a loan in an amount of HK\$20,000,000. The plaintiff took out an application for summary judgement under Order 14 of the Rules of the High Court on 6 October 1999 and in the hearing of the application on 25 October 1999, LifeTec Enterprise was given unconditional leave to defend the plaintiff’s claim in the above action. LifeTec Enterprise filed its Defense on 8 November 1999. The plaintiff should have filed its reply, if any, 14 days thereafter, but LifeTec Enterprise had not received any reply from the plaintiff and the time for the plaintiff to file the same has long expired and the pleadings should be deemed to be closed.

The Directors believe that there is no ground for the above claim and that it will not have any material adverse impact on the Group’s operations.

- (b) In 2012, the Company had been served with a summon issued by the Macau Judicial Base Court (“Tribunal Judicial de Base”), pursuant to which SHFL Entertainment (Asia) Limited (formerly known as Shuffle Master Asia Limited) (“SHFL Macau”) has commenced injunction proceedings against the Company, its subsidiaries (i) LT Game Limited (“LT Game”) (an entity which owns the global (including Macau) rights to use, distribute and maintain the material and equipment that uses the invention object of the Macau Invention Patent No. I/000150 (“Patent I/150”) and the Macau Invention Patent No. I/000380 (“Patent I/380”), and (ii) Natural Noble Limited (“Natural Noble”) (the owner of Patent I/380) and Mr. Jay Chun (the Chairman and Executive Director, the inventor and registered owner of Patent I/150) (collectively, the “Respondents”) (the “Injunction”).

The Injunction seeks orders to restrain, amongst others, the Respondents from, amongst other things, (i) making any representation or expression on any monopoly right over all and any solutions allowing players to play remotely in real time on a plurality of live games; and (ii) unfairly competing with SHFL Macau in any manner, amongst other ancillary petitions. Details of the Injunction and Macau First Instance Court decision are set out in the Company’s announcement dated 1 November 2012 and 19 November 2013. Following the dismissal of the injunction filed by SHFL Macau by Macau First Instance Court, SHFL Macau appealed against the dismissal before the Macau Second Instance Court. On 12 June 2014, the Macau Second Instance Court confirmed the dismissal of the injunction by agreeing with the Macau First Instance Court decision.

- (c) As at the date of this report, the main lawsuit in relation to the violation of the Macau registered Patents I/150 and I/380 is pending. SHFL Macau contested against the lawsuit and requested the invalidation of the grant of the Patents I/150 and I/380.

The Directors believe that it will not have any material adverse impact on the Group’s operations.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2014

30. OPERATING LEASE COMMITMENTS

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases in respect of rented premises which fall due as follows:

	2014 HK\$'000	2013 HK\$'000
Within one year	55,284	9,571
In the second to fifth year inclusive	129,972	7,057

Leases relate to directors' quarters, warehouse facilities and office premises and are negotiated for average terms of one to five (2013: one to five) years.

31. CAPITAL COMMITMENTS

	2014 HK\$'000	2013 HK\$'000
Capital expenditure contracted for but not provided in the consolidated financial statements in respect of: Acquisition of property, plant and equipment	9,859	33,693

32. RETIREMENT BENEFITS SCHEME

The Group operated a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the scheme are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% of the relevant payroll costs to the scheme, which contribution is matched by employees.

As stipulated by the rules and regulations in the PRC, the Group contributes to the retirement funds scheme managed by local social security bureau in the PRC. The Company contributes a certain percentage of the basic salaries of its employees to the retirement plan to fund the benefits.

The only obligation of the Group with respect to these retirement benefit schemes is to make the specified contributions. During the year ended 31 December 2014, the total retirement benefit scheme contributions charged to the consolidated statement of profit or loss amounted to approximately HK\$1,058,000 (2013: HK\$800,000).
