

Paradise Entertainment Exhibits at the Third China International Import Expo

Dedicated to supply high quality professional artificial intelligent equipment, wireless communication equipment and anti-epidemic medical products

Shanghai, 5 November 2020 – Paradise Entertainment Limited (“Paradise”) (HKEx Main Board listed company, stock code: 1180), through its subsidiary companies Tech (Macau) Limited and MedicTec Technology Company Limited, accompanied with displaying their 5th generation mobile networks (“5G”) technology and the latest products including smart wear, smart thermometry, smart home, smart security and surveillance, wireless communication equipment as well as anti-epidemic medical products in the pavilion actively participated in the third China International Import Expo (“CIIE” or the “Expo”) held in Shanghai.

Mr. Jay Chun, Chairman and Managing Director of Paradise commented, “We are very delighted and honored to demonstrate our latest high-tech and anti-epidemic medical products at the CIIE in Shanghai again. Despite the impact of the epidemic on all walks of life this year, as a high-tech enterprise, Paradise will persist with our commitments on research and development of high-tech products in the manner as we have dedicated before, and will continuously make efforts on innovations for the deployment of new products, thereby provide contributions to high-tech development and public hygiene and health of the Country and the Guangdong-Hong Kong-Macao Greater Bay Area.”

At the Expo, Paradise showcased its array of latest 5G, Artificial Intelligence (“AI”) and other high-tech products including its smart wear products such as student sports training waist bands and team sports training waist bands, professional sports watches, smart treadmills and smart spinning bikes, etc. giving an exhilarating impression to the exhibitors. In addition, Paradise demonstrated its new smart security and surveillance and network equipment and products mainly on aspects relating to face recognition, video surveillance, metal detection, 5G network access and other functions to support multi-target simultaneous detection.

In view of the arising public health concerns around the world in recent years, in particular the global significant impacts brought by Covid-2019, Paradise has been active in the development and manufacturing of high-tech smart products which can be used in the fields of public hygiene and health to meet the demands from public health issues and capture the business opportunities for related products. At the same time, Paradise exhibited various medical products under its own brand MedicTec such as infrared thermometers (body temperature warning), plug-in copper fiber personal protection face masks, medical use goggles, medical use face shields, etc. These products serve to contribute the strengthening of scientific and technological innovations in the aspects of medical devices, life and health care.

Paradise is a Hong Kong’s Main Board listed company based in Macau and has a leading position in global field of high-tech products, engaging in design, research and development, production and

sale of high-tech products and has committed to development of high-tech innovation technologies perennially in relation to 5G and AI, etc. Its latest products include those on smart wear, smart thermometry, smart home, smart security and surveillance, wireless communication equipment and anti-epidemic medical products. Paradise committed to providing high quality professional solutions for customers.
