

LT Game Launches New Production Line in Macau Injecting Fresh Momentum into “Made in Macau”

Macau, 15 April 2025 – Paradise Entertainment Limited (“Paradise Entertainment”, HKEx stock code: 1180) is pleased to announce the official launch of the new production line of LT Game Limited (“LT Game”), a subsidiary of Paradise Entertainment, in Macau today with a grand inauguration ceremony attended by government officials, industry representatives, and members of the media. This marks a significant milestone in strengthening the local manufacturing sector.

The new facility is currently the only production line in Macau dedicated to the manufacturing of gaming equipment. It not only enhances the city’s manufacturing capacity but also reflects LT Game’s steadfast commitment to advancing the physical technology sector. Now fully operational, the line is equipped to manufacture a wide range of gaming products, including slot machines and electronic table games machines. It supports the production of all LT Game’s current flagship models such as the LTS-1, LTS-2, Mighty Mite, Vista, Speedwave, and Ripple, etc. The new facility enables the company to better serve both local and regional markets, improving supply efficiency and enhancing customer support. Beyond serving the Macau market, machines produced on this line have already been exported to international destinations including Sri Lanka, Vietnam and the Philippines, etc. demonstrating the global potential and competitiveness of “Made in Macau” gaming products.

LT Game continues to lead in technological innovation within the gaming manufacturing industry. The company has developed and patented high-end models such as Speedwave and achieved several technical breakthroughs in components — most notably, its patented dice-rolling mechanism designed specifically for Craps, which has strengthened the company’s influence in international gaming technology development.

In addition to manufacturing, the facility also provides capabilities for machine and equipment upgrades, modifications, and testing, allowing the company to respond flexibly to evolving market demands and innovation. This enhances overall service efficiency while creating local employment opportunities and cultivating talents in manufacturing and engineering, contributing to Macau’s industrial diversification.

Dr. Jay Chun, Chairman and Managing Director of Paradise Entertainment remarked, "We believe this milestone represents more than just the company’s progress — it signifies a new chapter for “Made in Macau”. Going forward, we will continue to integrate R&D and manufacturing efforts to drive industrial upgrades and deliver long-term, sustainable value to Macau’s economy. With the successful launch of the production line, LT Game remains committed to innovation and professionalism, continuing to expand its global reach while delivering top-quality products and solutions to the gaming industry."

About Paradise Entertainment Limited

Paradise Entertainment Limited (HKEx stock code: 1180, together with its subsidiaries collectively referred to as the “Group”) engages in the development, sale and leasing of electronic gaming equipment and systems, as well as the provision of casino management services in Macau. The Group is the inventor, patent owner and sole provider of live-multi game terminals and dominates the electronic table games market in Macau. The Group has also been developing slot machines. Apart from the casino management business in Macau, the Group envisions to become a global leader in gaming equipment.
